

Electricity Facts Label (EFL)

David Energy Supply (Texas), LLC / Smart Battery / Centerpoint / November 5, 2024

Electricity Price

Average Monthly Use	500 kWh	1,000 kWh	2,000 kWh
Aver price per kWh	13.0¢	12.6¢	12.4¢

Price disclosure is based on the following components:

Electricity Rate	6.8¢ per kWh
Centerpoint Delivery Charges	5.3509¢ per kWh
Centerpoint Delivery Charges	\$4.39 per month

This price disclosure is an example based on average prices – your average price for electricity service will vary according to your usage. Some locations may be subject to a Transmission/Distribution (TDU) Underground Facilities and Cost Recovery charge authorized by their municipality that is not included in the total average prices shown. For more details, see your TDU service tariff for a listing of municipalities and authorized charges. TDU charges will be passed through to Customer without markup.

Other Key Terms and Questions

To be eligible for the Smart Battery plan you must connect an eligible battery to your account. Eligible batteries include: Tesla Powerwall, & Enphase

See Terms of Service statement for a full listing of fees, deposit policy, and other terms.

Disclosure Chart

Type of Product	Fixed Rate
Contract Term	12 Months
Do I have a termination fee or any fees associated with terminating service?	Yes. \$10 per month remaining on the Contract term. This fee does not apply if you move to another location.
Can my price change during contract period?	Yes, as detailed below.
If my price can change, how will it change, and by how much?	Your electricity rate will not change during the Contract Term. However, the price applied in the first billing cycle may be different from the price in this EFL if there are changes in TDU charges; changes to the Electric Reliability Council of Texas or Texas Regional Entity administrative fees charged to loads; or changes resulting from federal, state or local laws or regulatory actions that impose new or modified fees or costs that are outside of our control.
What other fees may I be charged?	Late Fee of 5% of the late bill's past due amount Failed payment fee of \$25 Paper billing or non-auto pay fee of \$5 \$50 Disconnect/Reconnect Fees and fees passed thru from TDU Out-of-Cycle Meter Read Fee (passed thru from TDU)
How will my battery be utilized?	David Energy will optimize your battery settings to generate a credit for you. You will maintain full control over backup reserve levels within your battery manufacturer app. See Battery Optimization Program terms for more information.
Is this a pre-pay or pay in advance product?	No
Does the REP purchase excess distributed renewable generation?	Yes, at 3.0¢ per kWh exported.
Renewable Content	This product is 100% renewable
What is the statewide average for renewable content?	The statewide average for renewable content is 28%
